K JAMES

Full-Stack developer

PROFILE

Hello! My name is K James. I'm a good **full-stack developer** having over 10 years of experience in developing web sites and our team specializes in developing windows applications and mobile applications. And also I'm interested in developing **intelligence device** that is controlled by mobile phone and it will be able to communicate with web application. In the future, I will try to develop the products that might be used to the lives of people. I think the credit is very important in cooperation and I will keep the credit. If you hire me, I will do my best and I will become a good developer for you.
